

Need time to design?

Then sign up for Time for design – new talent award 2010 before **June 16**.

The award is aimed at young, professional designers in the beginning of their career, who have already shown potential and talent. A highly qualified jury will select the best design.

Time to design – new talent award includes

- Three months residency at the Danish Art Workshops with own mini studio as well as access to workshops and guidance. If accommodation is needed an apartment is available as well.
- Career coaching by OEO
- Two weeks exhibition at the Normann Copenhagen flagship store
- DKK 50.000 to cover material costs

Jury 2010

- Odoardo Fioravanti, designer
- GamFratesi, design duo
- Maria Sparre-Petersen, designer
- representatives from the partners

For information about how to apply go to:
www.timetodesign.eu

Time to design – new talent award was founded in 2008 by the Danish Art Workshops, Normann Copenhagen and Link UP. The co-operation forms a distinctive platform for the growing talent and facilitates room and space for challenging projects and ideas.

2008 Award winner Anne Romme's "Saturated Porosity"

"I love working with projects where advanced and digital design and fabrication techniques overlap traditional materials and craftsmanship. The contrast between the distinct accuracy and the tolerance of given materials create the platform for design. Design that on one hand without the advanced technology would not have been possible and on the other hand lean on the proud tradition we have in Denmark to respect the incorporated quality of materials."

2009 Award winners Lanzavecchia + Wai's "Our" Chair, part of the Spaziale Series.

"As a young design duo embarking on our journey together, there is no other better way to establish our studio than being supported by such expertise, creative culture and communication platform.

We are grateful to be given this freedom for creation."
